

EXECUTIVE MEMO

TO: Executive Directors, DSN Boards
Executive Directors, QPLs
Therap Points of Contact

FROM: Deputy Director Pat Maley

SUBJECT: Annual Security Awareness Training

DATE: June 1, 2020

DDSN has been advised by the SC Department of Administration it will be moving from its current Security Awareness Training (SAT) platform, "SANS Securing the Human." This SAT platform has been used by the provider network for annual security awareness training. This SAT platform expires on June 30, 2020, and your access to our current platform will end at that time.

DDSN will continue the financial responsibility and coordination of this annual training. DDSN has begun the procurement process for a new SAT vendor with hopes to begin implementation in September. DDSN will collaborate with the provider network to operationalize this new procured platform, as well as set an annual training schedule to maintain security/privacy compliance required to access DDSN information systems.

The POC for this project will be DDSN Chief Security Officer Kareem Briggs, who can be reached at kareem.briggs@ddsn.sc.gov or 803.898.9706 to answer any questions you may have regarding the process, as well as provide you with a current report of your employees' security awareness training status.
